AND

MECHANICS' TOOLS,

MANUFACTURED AND SOLD BY

SARGENT & CO.

No. 70 BEEKMAN STREET,

AND

No. 68 GOLD STREET,

NEW YORK.

FACTORIES AT NEW HAVEN, CONN.,

LEICESTER AND WORCESTER, MASS.

1869.

NOTICE.

Discount and advance sheets applicable to this Price Book, will occasionally be forwarded to our customers, showing our then prices; all orders or parts of orders will be filled at our prices current at time of shipment, unless special agreement is made to the contrary.

Our Invoices are all made *Net Cash*; and are payable in *New York City Bankable Funds*, at no expense to us for "Exchange," if paid by draft, nor for transportation if remitted by express.

Money remitted by mail is at the risk of those remitting.

If bills are not paid promptly, we shall draw, without notice, at sight, "with Exchange on New York."

The place of delivery of our goods is either at the Factory where made, or at our Store in New York, as purchasers may prefer.

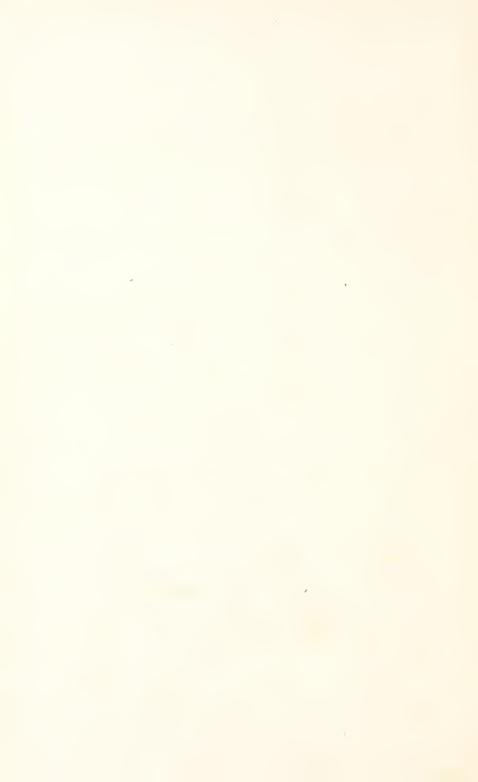

We would most respectfully inform our customers that we will not assume any responsibility for goods "sent in" to be packed or delivered, though we will use our utmost efforts to have them disposed of as directed, and shall at all times be happy to render our customers any favor of this nature, but at their risk. Nor can we allow claims for deficiencies, when goods bought of us are ordered to be sent elsewhere to be packed.

To avoid loss, goods should be packed in cases where they are purchased.

In addition to the Hardware listed in this book, we keep in Store a very large stock of assorted Hardware, either consigned by Manufactures for whom we are New York Agents, or manufactured for us on contract; which with our own very extensive manufacturing facilities enables us to offer to the trade an immense stock of Hardware, in great variety, at manufacturers very lowest prices.

SARGENT & CO.,

70 Beekman Street, New York.

Sargent & Co., Proprietors of the

CARD MANORS CESSORS OF CESSORS OF

[Copy of Bill of Sale of the Hand Card Business, Machines, Tools, Trade Marks, &c., formerly belonging to John Whittemore & Co., to J. B. Sargent, of Sargent & Co., No. 70 Beekman Street, New York.

"Mr. J. B. Sargent, Bo't of Wm. Kumbel, Assignce of the Estate of John Whittemore.

All the Hand Card Machines, and the Tools for repairing and regulating the same, and all the Tools, Shafting, Belting, Signs and Stamps, (Trade Marks) heretofore owned and used by John Whittemore & Co., in manufacturing and finishing Hand Cards; also the "good will" of the Hand Card Business heretofore carried on by John Whittemore or John Whittemore & Co.

Received Payment, New York, April 18, 1859.

[Signed]

WM. KUMBEL, Assignee."

"In consideration of above sale, I hereby assign, sell and set over to said Sargent, all right, title and interest, that I have in above mentioned property, together with the good will of my Hand Card Business, Stamps, (Trade Marks) &c., &c., agreeing and binding myself in law and honor, not to carry on the Hand Card business any more.

[Signed]

JOHN WHITTEMORE,

[Seal.]"

Being the exclusive owners of all the Hand Card Stamps, Brands and Trade Marks, including the well known "Successor" Stamp, formerly owned and used by John Whittemore & Co., we hereby caution other parties against adopting or imitating them in any way or manner.

SARGENT & CO.,

NEW YORK.

Suggestions to those Ordering Cutlery.

A moment's attention to our List, will free it from all perplexity, and make it easily remembered.

Nos. 400 to 500 inclusive, are White Bone.

Nos. 600 to 700 " " Ebony.

Nos. 800 and upwards, "Cocoa.

Thus No. 425 is a White Bone handled Knife, with a long solid Bolster; and No. 625 is the same size, style and finish, but with an Ebony Handle; and No. 825 is the same knife in Cocoa.

So with all the List; when familiar with one-third of it, you have all the Table Cutlery. We ask special attention to our '82's, or 482 Bone; 682 Ebony; and 882 in Cocoa. This is one of our most popular styles, and the best Shell Bolster Knife ever made. Break one of these Knives apart, and you will be convinced of this.

The Bolster, and Handle Pins are of hard and non-corroding White Metal, while the Bolster is secured by an Iron Bolster Pin, which is headed on each end; and the heads are enveloped in the centre of each side of the Bolster, which is cast over the Pin.

The cut also shows the Handle-Pins, which are cast into the handle and so double headed that the Handle must be destroyed before it can come apart or even become loose.

These Bolsters are hard and durable.

All our Knives and Forks are made of Steel of superior quality.

Patent Self-Adjusting Plow.

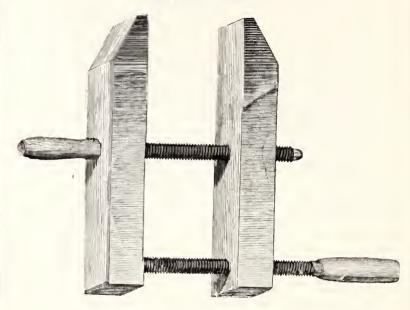

The adjusting of the Fence to this Plow will be found a great improvement over the old style of Plow. It is simple in its construction, easily and accurately adjusted; as all projections are on the left hand side, the mechanic is not obliged to remove his tools from the work-bench in order to use it.

This attachment is applicable to all Screw Arm Tools.

Annexed is a list of the most saleable numbers, (the Nos. corresponding with Nos. of List.

AGENTS FOR HARVEY W. PEACE'S

WARRANTED

CAST STEEL VULCAN SAWS.

Terms of Warranty.

Each Saw is warranted free from seams or flaws, and as true as possible. Any Saw found defective in either of the above particulars, if returned within a reasonable time, will be made good, or a new one given in its place. The greatest care is taken that every Saw shall be true and of even temper. A Circular Saw is sometimes condemned when the fault rests with the Mandrel upon which it is run.

Alterations made in the Mandrel or pin-holes of Circular Saws, either by filing or reaming, will almost invariably spring the plate, and render it unfit for use. When this alteration is made, the Saw will not be subject to the above warranty.

In ordering Circular Saws, specify Cross-Cut or Rip, Diameter of Saw Gauge (or thickness), size of Holes, number of Teeth (or space between Teeth), Log Side (right or left hand), when standing with Saw cutting towards you; also the general kind of lumber to be cut.

Warranted Ex. C. S. Circular Saws, Pat. Ground. Stamped Harvey W. Peace.

A good and substantial article, patented May 5, 1863, and June 7, 1864.

The above Locks have our Improved Tumblers, which allow of a greater variety of changes, and are extra safe.

The above Locks should always be ordered with Furniture complete, as they require Large Knobs, and are adapted for 3% in. Spindles.

To reverse the above Locks, pull out Latch Bolt, turn it over and return to its place. In reversing the above Locks, the Latch Bolt is not removed from the case which contains it.

The Mechanism and Design of the Builders' Locks are patented, and we adopt as our Trade Mark the name of Builders, which will be protected.

DOOR KNOBS.

NOTICE.

The following are some of the advantages claimed for our present mode of SPINDLING White Knobs in plated and tinned mountings, viz.: the nice manner in which they can be adjusted to the thickness of the door, without the use of washers.

The serew, if driven hard down, wedges the spindle firmly in the shank, having three bearings, and prevents the knob from working loose on the spindle; and the thread for the serew being cut in the shank, it renders its hold more firm. In the old method of spindling, in consequence of variation in size of spindle iron, and hole in the shank, and the spindle having but one bearing when screwed down, there was a tendency to become loose after being used a short time. The present mode is intended to obviate this difficulty. We have subjected this new mounting to very hard usage on our shop doors for a year past, without a failure in any case, and we consider it a great improvement. The old kind will be furnished if preferred.

Mallory, Wheeler & Co.

Mineral Door Knobs.

All First Quality.-2 1-4 Inch Size.
